

IXALAN MAGIC LEAGUE

Magic League is a four-week program for fun, on-demand *Magic* play, at any skill level.

Prepare Your Players

Upon joining the league, each player should receive:

- 3 *Ixalan* booster packs
- 1 league match card

Run the League Over 4 Weeks

Choose a day of the week to be your league meetup day. Specify a start time for your meetup. Keep the day consistent each week.

Players can play matches at any time during the league, but the league meetup night serves as an opportunity for the whole group to get together and as a good entry point for new players. Four weeks is an ideal amount of time for league play. After the league is over, you can always start another one if you have demand.

Players build a 30-card minimum deck from the booster packs they received at the start. They may play any number of matches. Matches should be just one game, and each player may take one free mulligan per match.

Weeks 2, 3, 4: Players may **add one *Ixalan* booster**. No change to minimum deck size.

After 3 Losses: Players may **add one *Ixalan* booster**.

Players can join the *Magic* League **at any time** during the four-week period. In addition to their initial booster pool, allow them to add boosters for the weeks they missed.

Award End-of-League Certificates

Reward your players with league certificates for most games played, most games won, friendliest player, or fill in your other achievements such as: most improved player, most new player referrals, etc.

Share Your League Experience

Join the conversation and tell us your *Magic* League success story! Check out the official ***Magic: The Gathering*** Facebook page or chat with [@wizards_magic](https://twitter.com/wizards_magic) on Twitter.

Is your group ready for a new challenge?

Test your skills against other league players at your local game store!
