

# BETRAYAL AT HOUSE ON THE HILL

## WIDOW'S WALK

### AN EXPANSION

When we made **Widow's Walk**, we continued the proud Betrayal tradition of stuffing the box with tokens. However, as those of you who've discovered an Underground Lake on the upper floor know, every now and then gremlins get into the waxworks. This time, four tokens unintentionally fell off the token sheet. We didn't catch this until the game was already printed. So we whipped up a PDF version for you.
