Look at the top two cards of your library.
Cloak one of them. Then put the other on
top of your library or into your graveyard.

*(To cloak a card, put it onto the battlefield
face down as a 2/2 creature with ward 2.
Turn it face up any time for its mana cost
if it's a creature card.)*

You and defending player may each search their libraries for a basic land card, put it onto the battlefield under their control tapped, then shuffle.

The owner of target creature shuffles it into their library, then reveals cards from the top of their library until they reveal a creature card. They put that card onto the battlefield and the rest on the bottom of their library in a random order.

For each opponent, goad up to one target creature that player controls.

(Until your next turn, they attack each combat if able and attack a player other than you if able.)
